

# CONTENTS

CHAPTER 1. PHILOSOPHY OF SHIP DESIGN . . . . .	1
1.1 Introduction . . . . .	1
1.2 Requirements of a capable designer . . . . .	5
1.3 Personnel involved in ship design . . . . .	9
1.4 Scope of ship design . . . . .	13
1.5 General nature of the process . . . . .	17
CHAPTER 2. PRELIMINARY ESTIMATE OF DISPLACEMENT . . . . .	22
2.1 Weight grouping for design . . . . .	22
2.2 Relation of carrying capacity to displacement . . . . .	25
2.3 Relation of operating cost to displacement . . . . .	35
2.4 Relation of commercial efficiency to displacement . . . . .	38
2.5 Relation of combat efficiency to displacement . . . . .	44
2.6 Weight equations . . . . .	51
2.7 Preliminary estimate of displacement . . . . .	65
CHAPTER 3. PRELIMINARY ESTIMATE OF ELEMENTS OF FORM . . . . .	97
3.1 Basic considerations . . . . .	97
3.2 Estimate of length . . . . .	102
3.3 Estimate of breadth . . . . .	111
3.4 Estimate of depth, draft and freeboard . . . . .	116
3.5 Estimate of coefficients of fineness . . . . .	124
CHAPTER 4. PRELIMINARY ESTIMATES OF STABILITY . . . . .	131
4.1 Criteria of transverse stability . . . . .	131
4.2 Estimate of transverse stability . . . . .	137
4.3 Estimate of longitudinal stability . . . . .	147
CHAPTER 5. PRELIMINARY LINES AND CALCULATIONS . . . . .	152
5.1 Fundamental considerations . . . . .	152
5.2 Delineation of the lines . . . . .	157

	5.3 Design of appendages	165	
	5.4 Displacement and stability calculations	168	
CHAPTER 6.	DESIGN OF GENERAL ARRANGEMENTS		170
	6.1 General arrangements of ships	170	
	6.2 General arrangements of commercial vessels and naval auxiliaries	174	
	6.3 General arrangements of warships	181	
	6.4 Watertight subdivision of ships	189	
	6.5 Watertight subdivision of commercial ships and naval auxiliaries	193	
	6.6 Watertight subdivision of combat ships	198	
	6.7 Delineation of general arrangement plans	201	
CHAPTER 7.	STRENGTH AND WEIGHT CALCULATIONS		205
	7.1 Preliminary strength calculation	205	
	7.2 Preliminary weight calculation	210	
	7.3 Longitudinal balance	217	
	7.4 Vertical position of center of gravity	222	
CHAPTER 8.	CONTRACT AND FINAL DESIGN		227
	8.1 Contract design	227	
	8.2 Detail weight calculation	237	
	8.3 Final design	246	
APPENDIX 1.	COMPUTATION OF RIGHTING ARMS FROM PRINCIPAL DIMENSIONS AND COEFFICIENTS		249
APPENDIX 2.	TAYLOR'S MATHEMATICAL LINES		258
APPENDIX 3.	PROCEDURE IN PRELIMINARY DESIGN		272
