PREFACE

CHAPTER	PAGE
I. COMBINED OPERATIONS BETWEEN THE WARS	I
At the Staff Colleges. Material stagnation. The awakening—Abyssinia—China, 1937. Slapton landing, 1938. Formation of I.S.T.D.C. at Eastney. Policy, then ships, craft and equipment devised. Staff College exercises. Planning. A warning—first orders for craft given. War declared—I.S.T.D.S. to disband. To Loch Ewe. Back to I.S.T.D.C.	
II. NARVIK OPERATION	24
Planning. General sails—first landing. Admiral arrives, so does convoy and a submarine. Harstad—the build up. Difficulties. French arrive. Narvik bombarded. Move to Mo and Bodo. Landing at Herjangs. Fighters fly in. Capture of Narvik. The evacuation and lessons.	
III. THE DIRECTORATE OF COMBINED OPERATIONS JUNE 1940 TO 1941	60
Fall of France. D.C.O. formed at Admiralty. Raiding to begin. First need craft. Orders placed. First Raids. Change of technique—Ocean to Channel. Conversion of L.S.I. Design and construction of L.C.T.(1), (2) and (3), landing barges, first amphibian tank. Dakar—lessons. The L.S.T. develops. Admiral Keyes D.C.O. goes to Richmond Terrace. Inverary and Kabret C.T.C. start work. Responsibilities of D.C.O. A Plan for Pantellaria.	
IV. YEARS OF PRODUCTION 1941-3	77
1941, Russia and U.S.A. join us. Position—ships, craft and training. Carrying L.C.T. to Mediterranean—L.S.Dock. Landings in France examined—L.C.T.(4) and L.C.T.(5), problem of water gap, water-proofing vehicles, V.L.R. then Pontoon Barge. Appeal to U.S.A. to build landing ships and craft—Pearl Harbour. L.S.T., L.S.D., L.C.T.(5), L.C.M.(3) built to great orders. Attitude in U.S.A.—influence of Pacific outlook. C.C.O. asks for L.C.I.(L). Dieppe—development of gun and rocket carrying L.C.T. and L.C.G.(M). U.S.A. landing fleet for Pacific grows—L.V.T. and D.U.K.W. Comparison of U.S.A. and U.K. Landing fleets. Other construction by Admiralty.	

V. THE MEN WHO SAILED TO THE ASSAULT

96

Crews for Narvik and North Africa. Problem of R.A.F. Problem for Army—Training staffs—Beach Group training—Independent companies, Commandos, S.A.S. Regiment, Folbot parties. Raiding forces now for Royal Marines. Problem for Navy—Raiding Section, D.N.E.(Co) for material, D.T.S.D.(Co) for personnel, estimates of future needs. Four different types of entry—Northney, H.M.S.'s *Quebec* and *Saunders*. Commodore Mountbatten becomes D.C.O.—takes over naval personnel, H.M.S.'s *Westcliffe*, *Dinosaur* and *Copra*, 16,000 on books. R.M. take over small craft. L.C. Navy returns to Admiralty. Peak total in 1944.

VI. TRAINING DURING 1940-2

106

Northney in use, then Inverary—first troops in Glens at Inverary—Commandos for Pantellaria—1st Guards Brigade do a 48-hours' exercise. March, 1941, Marines from Dakar at Inverary—tactics advance. Expeditionary Force for Atlantic islands formed at Largs. H.Q. training at Largs. 4th Division to Inverary, then 3rd Division—Castle Toward for 6th Armoured. January, 1942, 29th Brigade to Madagascar. 46th Division joins Expeditionary Force under 2 Corps. Tactical policy when 2nd Corps goes to North Africa. Middle East thinks of Rhodes but fights Rommel.

VII. LESSONS FROM OPERATIONS 1941-4

112

Dakar, Apulian aqueduct, Lofotens, Commando Raids in the Mediterranean with Layforce, Spitzbergen, Vaagso, Bruneval, St. Nazaire, Madagascar, Kuphonsii, Crete, Dieppe, Tobruk, Rhodes. Twelve Commando raids 1943-5. North Africa. Pantellaria, Sicily, Reggio, Salerno, Anzio. Command in Combined Operations. Lessons in Europe and Pacific compared—two policies. Use of the amphibian.

VIII. PROTECTION OF OUR EXPEDITIONS CROSSING THE SEA

126

Lessons from 1914-18. Object of agreement with Germany after 1935 Naval Conference. Possibilities of German Policy in 1940, *Goeben* and *Breslau*—Galvanization of Italian Fleet. Outlook at Gibraltar, 1941. Force 'H'. *Bismarck* sighted 23rd May in Denmark Straits. *Bismarck* operation as seen from *Ark Royal*. Importance of carrier to protection of our ocean lines of communication.

IX. PROTECTION OF OUR EXPEDITIONS AGAINST AIR ATTACK

149

Policy 1746, 1914-18 and 1941. Developments following construction of aircraft carriers. Use of carrier in Mediterranean—convoys to Malta. Carrier fighters against shore-based aircraft. Air superiority by carrier in the Pacific—Limitations.

CHAPTER	PAGE
X. THE SETTING FOR MIDDLE EAST OPERATIONS	157
<p>Strategic situation—The vital hump of Cyrenaica. Air superiority with the enemy. In Alexandria. Battleships out of action. Carriers leave, Fleet Air Arm to coastal desert strip. R.A.F. and F.A.A. co-operation up the desert. Need of Sea strategy—the torpedo bomber. The Wellington and Beaufighter torpedo-bombers. Lack of equipment forces Middle East on defensive—Loss of Cyrenaica airfields points to capitulation of Malta.</p>	
XI. MIDDLE EAST—RAIDS BEFORE ALAMEIN	169
<p>D.C.O. Middle East. C.T.C. at Kabret inadequate. New directive for D.C.O. New lay-out for C.T.C. to train formations. Middle East Bases, Canal zone to Taura Caves. S.A.S. Regiment based at Kabret—some exploits. German and Italian interest in raids. Raids on Crete. A Bomba landing, but Rommel advances to Alamein. In Cairo. Unloading berths at Tobruk and in Middle East decide the issue. L.C.T. to Alexandria for the advance—their problem. Importance of navigational aids.</p>	
XII. TOBRUK AND CYRENAICA	190
<p>Rommel's vital link Tobruk. The Tobruk raid. Help from the sea after Alamein, possible landings, visit to Benghazi, Barce, Cyrene, Apollonia, El Hamar, Derna, General Montgomery's H.Q. The black line by the sea.</p>	
XIII. STRATEGY UNFOLDS	201
<p>Need for strategy after Tunis—Proposals. Middle East relegated to alternative Aegean plan. Threat from Taurus. Plans for Crete and Rhodes. Lessons from Madagascar. North Africa is captured.</p>	
XIV. D.C.O. MIDDLE EAST 1943—PREPARATIONS	208
<p>Casablanca plan goes to Algiers and Cairo. Extemporised lay-out for Kabret C.T.C. Training programme and scheme of training. Middle East base area. Experimental work.</p>	
XV. THE BEACH ORGANIZATION	216
<p>Lessons of the past. Attempts to form a Group in Middle East. Plan for Sicily demands 3 groups. Formation, training, lay-out of a Beach Group. Letter from Salerno.</p>	

CHAPTER	PAGE
XVI. THE PLAN AND TRAINING DEVELOP	227
Difficulties with Sicily Plan. Planning Staffs arrive. Need for formation training staff. First Brigade reaches Kabret—C.T.C. system of training in action. 'Brick' training. Demonstrations. Realism of 'Dryshod' training. Damascus and visit to Haifa. In Cairo Planners uneasy. General Montgomery visits Cairo. Sicily Plan is changed. Brigade training is now with a purpose. Spirits revive.	
XVII. REHEARSALS	243
Surveys. Limitations to rehearsals. Visit to Akabar. Outline of operation settled. Rehearsal at Akabar. Lessons. Value of mistakes.	
XVIII. THE EXPEDITION SAILS FOR SICILY	256
Importance of time-table for planning—last minute rush. Enemy situation in Sicily. The plan of assault. Movement of Convoys. The gale on D—I. Airborne attack. Diversionsary operations. On the Beaches. Results by Beach Groups. Syracuse captured.	
XIX. MAJOR LANDING CRAFT TO THE MEDITERRANEAN	264
How water gap was crossed. L.S.T. from America—L.C.T. from U.K. L.C.T. have to go to Mediterranean. Development of fleet of L.C.T. based on Troon. 150 M.L.C. sail to Mediterranean in 1942—their journey. L.C.I. (L.) from U.S.A. Base organizations in Mediterranean.	
XX. TO TRIPOLI	270
10 Corps to train in Tripoli. Reconnaissance. Mobile C.T.C. moves to Tripoli, Zuara and Homs. Situation in Tripoli—briefing for Sicily—L.S.T. and L.C.T. sail. Visits to training areas. The Programme. Craft arrive from Egypt. Training in three areas. A landing at Zuara. Conclusions about Mobile C.T.C.	
XXI. TO INDIA	284
Previous history of Combined Operations. Journey out by air. The job. Recommendation. A new directive. Command in India. Training policy, Mahd meeting. Visit to Cocanada, Quetta Staff College, Bangalore Dryshod Team and visits to Coimbatore, Ceylon, Vizagapatam and by M.T.B. to Cocanada. Staff School in Delhi start work. Effect of Imphal operations. The C.T.C. at Kharakvasla. Training stops.	
XXII. SHIPS FOR THE EAST	293
Requirements appreciated. Condition of ships and craft. Policy to get M.L.C. ready. Sailings start. Policy with L.S.I. and L.S.T. First users trials. The machinery behind landing ships and craft. Need for a Command.	
XXIII. SUMMING UP AND LOOKING FORWARD	297
INDEX	307

PLATES

I. Assault

Frontispiece

BETWEEN PAGES 64-65

2. Assaulting from L.C.A.
3. Raiding from 'R' Craft
4. (a) British L.C.M. (1) built 1939 (b) U.S.A. L.C.M. (3) built 1942
5. L.C.A. training at Kabret
6. Tanks landing from L.C.T.
7. (a) L.C.P. from U.S.A. (b) The hold of a L.C.T. (3)
8. (a) The L.C.I. (L) built in U.S.A., first used at Sicily landings
(b) L.C.I. (L) New and old types of brow
9. American personnel landing from a L.S.I. in a L.C.T. (6)

BETWEEN PAGES 80-81

10. Wading ashore from L.C.I. (L) in Sicily
11. (a) H.M.S. *Gleneard* Landing Ship Infantry (large) or L.S.I. (L)
(b) H.M.S. *Queen Emma* L.S.I. (medium)
12. (a) Luxury liner becomes L.S.I. (L), L.C.M. (1) landing 100 men
(b) Admiralty oiler fitted to carry and hoist out 14 L.C.M. (1)
13. 1941. The Landing Ship Tank: (a) *Bachequero*
(b) H.M.S. *Boxer* (L.S.T. [1])
14. Then came the L.S.T. (2)
15. (a) L.S.T. (1) with brow 145 ft. long (b) British L.S.T. (3)
16. (a) Landing Ship Dock (L.S.D.) embarking vehicles from L.C.T.
(b) L.S.D. capable of carrying 2 L.C.T. at 16 knots
17. (a) A.A. protection: L.C.F. with 8 2-pdr. guns, 4 Oerlikon guns
(b) Bombardment. L.C.T. (4) with 2 4.7-inch naval guns

BETWEEN PAGES 120-121

18. (a) The L.C.T. (R) for rockets
(b) Rockets—more than 1,000 of them
19. (a) American landings develop in the Pacific
(b) The amphibian with tracks—the L.V.T.

BETWEEN PAGES 192-193

20. Malta convoys. Dusk at Zerka Channel
21. (a) *Ark Royal* with *Furious* and *Renown* (b) Fighter Direction Ship
(c) Headquarters ship H.M.S. *Bulolo*
