

Contents

Preface	ix
Chapter 1 Introduction	1
1.1 Background	1
1.2 The Role of Receivers in Modern EW Systems	2
1.3 Major Applications of EW Receivers	2
1.4 Organization of the Book	4
Chapter 2 Radar Signals in Military Applications	5
2.1 Basic Theory of Operation	6
2.2 Signal Waveforms	12
Chapter 3 Signal Intercept and Detection	43
3.1 Problems of Signal Interception	44
3.2 Noise Sources in Receivers	48
3.2.1 External Noise	48
3.2.2 Internal Noise	53
3.3 Probability of Detection	55
Chapter 4 Receiver Characteristics	67
4.1 Noise Figure	67
4.2 Dynamic Range	77
4.3 Sensitivity Measures	84
4.4 Nonlinear Channels	87
Chapter 5 Crystal Video and Superheterodyne Receivers	97
5.1 Crystal Video Receivers	97
5.2 Basic Superheterodyne Receiver	111
5.3 Homodyne Receivers	123
5.4 The I-Q Receiver	124
Chapter 6 Instantaneous Frequency Measurement Receivers	127

6.1	Basic Principle of Operation	127
6.2	Practical IFM Receivers	132
6.3	Simultaneous Signals	135
6.4	Summary	138
Chapter 7	Channelized Receivers	139
7.1	Basic Architectures and Design Considerations	139
7.2	Signal Encoding	147
7.3	Summary	151
Chapter 8	Microscan (Compressive) Receivers	153
8.1	Basic Principle of Operation	154
8.2	Compressive Receivers as Fourier Transform Devices	164
8.3	Summary	167
Chapter 9	Acousto-Optical Receivers	169
9.1	The Basic Acousto-Optical Receiver	170
9.2	Interferometric Bragg Cell Receiver	178
Chapter 10	Digital Receiver	183
10.1	Waveform Sampling and Quantization	184
10.2	Digital Receiver Architectures	195
Chapter 11	Signal Sorting and Identification	207
11.1	EW Receiving System	207
11.2	Artificial Intelligence	211
11.3	Neural Nets	217
11.4	Summary	220
Chapter 12	Passive Direction Finding and Geolocation	221
12.1	Basic Antenna and Array Theory	222
12.1.1	Antenna Parameters	222
12.1.2	Array Theory	227
12.2	Amplitude Comparison DF Methods	231
12.3	Phase Interferometry	235
12.4	Digital Signal Processing DF Techniques	242
12.4.1	Multisignal Phase Interferometry	243
12.4.2	Direct Multisignal Estimators	246
12.5	Geolocation	248
12.5.1	Direction-of-Arrival Approach	248
12.5.2	Time-Difference-of-Arrival Approach	253
Chapter 13	EW Receiving System Architectures	261
13.1	ESM Receivers	261
13.2	ECM Receivers	283
Chapter 14	Future Trends in Electronic Warfare	289
