

CONTENTS

Dominik Filipiak, Milena Stróżyna, Krzysztof Węcel, Witold Abramowicz

Big data for anomaly detection in maritime surveillance:
spatial AIS data analysis for tankers 5

Mariusz Makowski, Marta Czarnowska, Karol Biernacki, Rafał Namiotko

Design process of a helical flux compression generator 29

**Robert Matyszek, Bogusław Grochowina, Adam Dobkowski,
Marcin Wiśniewski, Paweł Domaros**

Using of new narrowband waveforms to ensure proper operation of command
and communication systems 47

Michał Narożny, Paweł Polański, Rafał Namiotko, Marta Czarnowska

Relationship between basic physiochemical properties of seawater
and magnitude of underwater electric field 63

Paweł Polański, Franciszek Szarkowski

Simulations and measurements of eddy current magnetic signatures 77

Aleksandra Mazur, Przemysław Pozański, Przemysław Stencel

Ensuring electromagnetic compatibility on newly built vessels for the Polish Navy 103

**Paweł Dobrzyński, Stanisław Lipski, Bogdan Machowski,
Rafał Miętkiewicz, Mariusz Krawczak**

Flying means of attack of ships, possible to be used by a potential enemy —
analysis of the threats for ships the Polish Navy 117

Paweł Zalewski, Roman Haberek, Mirosław Chmieleński

Modern dynamic positioning (DP) system of ORP 'Kormoran' —
class mine destroyer 143

Czesław Dyrz

A bow-echo and severe weather observed over Poland
on 11th and 12th August, 2017 157
