

CONTENTS

<i>Wioletta Rogula-Kozłowska, Karolina Bralewska</i>	
Foreword	9
<i>Ł. Bednarczyk</i>	
Interactive Dashboard as a Tool for Building Society's Resilience to Threats	11
<i>J. Białowicz</i>	
Modelling and Geographic Information Systems in Safety Management – Example of Landfill Fires	17
<i>K. Bralewska, W. Rogula-Kozłowska, J. Białas, A. Bralewski, A. Dmochowska</i>	
Quantitative Share of Air Pollution Sources Inside the Selected Fire Station	25
<i>A. Bralewski, K. Bralewska</i>	
Flood Risk Assessment as a Safety Engineering Tool	31
<i>A. Felkner</i>	
Skills in Cybersecurity – Gaps and Good Practices	39
<i>M. Feltynowski</i>	
Safety Management on the Example of Flood Action 2024	45
<i>J. Gibas, A. Mizerski, D. Gancarczyk</i>	
Testing the Resistance of AR Foams to Selected Polar Liquids	55
<i>L. Horváth</i>	
Do Firefighters Clean Their Clothes Effectively?	61
<i>W. Gawroński, K. Tyrańska-Wizner</i>	
The Use of GIS in Safety Management – Selected Aspects	67
<i>M. Gusiatin</i>	
Environmental and Economic Benefits of Co-Pyrolysis of Sewage Sludge with Agricultural and Forest Biomass	73
<i>A. Gonciarz, R. Pich, A. Iwan</i>	
New, Extremely Toxic Chemicals in the Aspect of Key Threats to Public Safety – Critical Analysis, Catalogue of Threats, and Key Procedures	81

<i>A. Gonciarz, R. Pich, A. Iwan, A. Januszko</i>	
The Importance of Nanomaterials in Safety Engineering: Titanium Dioxide and Solar Cells	89
<i>M. Graboń-Chałupczak</i>	
Transport Safety in the Face of the Energy Transformation	95
<i>M. Jabłońska-Czapla, G. Yandem</i>	
Environmental and Technological Safety Aspects of the Use of Photovoltaics in Polish 'Smart Cities' Challenges and Development Perspectives	101
<i>P. Janik</i>	
Practical Aspects of Engineering Analysis and Assessment of Fire Hazards and Other Local Threats	107
<i>B. Kozielska, N. Mehta</i>	
The Occurrence of Microplastics in the Indoor Environment	113
<i>W. Kowalski</i>	
Quantitative Risk Analysis – Innovations and Perspectives	119
<i>A. Krauze, M. Mikke</i>	
Analysis of the Impact of Temperature on Building Elements under Fire Conditions Using Experimental Methods and Computer Models ...	125
<i>A. Krystosik-Gromadzińska</i>	
Identification of Technical and Human Risk Factors of the Vessel's Power Plant Fire Origin	133
<i>J. Miedziak, A. Gonciarz, R. Pich, A. Iwan</i>	
Nanomaterials for Potential Detection and Remediation of CBRN Contamination	139
<i>A. Mizerski, D. Gancarczyk, J. Stec</i>	
Testing the Properties of Extinguishing Powders under Exposure to an Atmosphere with Variable Humidity	145
<i>P. Organiściak</i>	
Efficiency and Safety of Machine Learning Applications in Selected Industrial Critical Infrastructure Systems	151
<i>P. Organiściak, A. Turek, A. Stęchły, J. Rysz, V. Vanivska, A. Masłoń,</i> <i>B. Wadiak</i>	
Prediction of Biogas Yield from Anaerobic Digesters Using Meta-Regression and Machine Learning Methods	157

<i>P. Pantya</i>	
More Solutions for Personal Protective Equipment Used by Firefighters	163
<i>W. Pellowski, A. Iwan</i>	
Innovative Application of Radioactive Sources for the Conversion of Ionising Radiation into Electricity in Photovoltaic Cells Based on Scintillators: Safety Engineering Aspects	169
<i>R. Piec</i>	
Safety of Firefighters during Emergency Incidents Involving LNG	177
<i>P. Rogula-Kopiec</i>	
Health Safety – Respirable Dust in Non-Production Facilities	183
<i>M. Tytła, A. Pohl</i>	
Fires and the Safety of Aquatic Ecosystems	189
<i>T. Węsierski</i>	
The Use of Turbine Firefighting Systems to Limit the Spread of Threats	195
<i>J. Zawila-Niedźwiecki</i>	
What Does Risk Management Theory Owe to Engineers?	201
