INTRODUCTION

TransNav'2007 – The 7th International Symposium on Navigation	15
<i>Michał Holec, Adam Weintrit</i>	
Message from The President of The Nautical Institute	
Opening Address for TransNav'07 at Gdynia Maritime University	19
<i>Nicholas Cooper</i>	

Chapter 1. SAFETY OF NAVIGATION

1.1. The Dynamic Game Models of Safe Navigation	23
<i>Jozef Lisowski</i>	
1.2. Innovative Probabilistic Prediction of Accident Occurrence	31
<i>Kinzo Inoue, Masayuki Kawase</i>	
1.3. Today's Maritime Navigation and Its Changes	35
<i>Waclaw Morgas, Jozef Urbanski, Zdzisław Kopacz</i>	
1.4. Availability of the Certain Value of Position Error in the Navigational Systems – Model Application	39
<i>Cezary Specht</i>	

Chapter 2. NAVIGATION, MANOEUVERING AND SHIP-HANDLING SIMULATION

2.1. Internet Based Integration Of Multi-Ship Handling Simulators With IP Multicast	45
<i>Jinbiao Chen, Songqing Shao, Quinyou Hu, Mingming Zhang</i>	
2.2. Combined Maneuvering Analysis, AIS and Full – Mission Simulation	51
<i>Karl Gunnar Aarsaether, Torgeir Moan</i>	
2.3. Combination of Processing Methods for Various Simulation Data Sets.	57
<i>Maciej Gucma</i>	
2.4. Fairway Navigation – Observing Safety-Related Performance in a Bridge Simulator	63
<i>Robert Nilsson, Margareta Lutzhof, Tommy Garling</i>	
2.5. Use of Simulation for Optimizing Manoeuvres in Constantza Port	69
<i>Eugen Barsan</i>	

Chapter 3. GLOBAL NAVIGATION SATELLITE SYSTEM

3.1. Modernization of Satellite Navigation Systems and Theirs New Maritime Applications	77
<i>Jacek Januszewski</i>	

3.2. DGNSS Re-Capitalisation	83
<i>Michael Pattinson, Mark Dumville, Nick Ward</i>	
3.3. Application of GNSS Integrated Technology to Safety of Inland Water Navigation	89
<i>Dariusz Popielarczyk, Stanislaw Oszczak</i>	
3.4. Software Navigation Receivers for GNSS and DVB	95
<i>Frantisek Vejrazka, Pavel Kovar, M. Ecka, P. Puricer</i>	
3.5. ASG-EUPOS – A Multifunctional Precise Satellite Positioning System in Poland.....	101
<i>Jarioslaw Bosy, Wieslaw Graszka, Marcin Leonczyk</i>	
3.6. Galileo Satellite Navigation System Receiver Concept	105
<i>Jerzy Demkowicz, Mateusz Lemanczyk</i>	
3.7. Possibility of Precise Positioning and Precise Inshore Navigation Using RTK and Internet	109
<i>Lech Kujawa, Jerzy B. Rogowski</i>	
3.8. Accuracy Analysis of the EGNOS System During Mobile Testing	115
<i>E. Douglas Aguilar, Leszek Jaworski, Marcin Kolodziejczak</i>	
3.9. EGNOS Status and Performance in the Context of Marine Navigation Requirements	121
<i>Jaroslav Cydejko</i>	
3.10. An Effect of Urban Development on the Accuracy of the GPS/EGNOS System	127
<i>Ryszard Bober, Tomasz Szewczuk, Adam Wolski</i>	
3.11. GNSS for an Aviation	131
<i>Marek Grzegorzewski, Janusz Cwiklak, Henryk Jafernik, Andrzej Fellner</i>	
3.12. GNSS for an Aviation Analysis Based on EUPOS and GNSS/EGNOS Collocated Stations in PWSZ Chelm	135
<i>Andrzej Fellner, Janusz Cwiklak, Henryk Jafernik, Pawel Trominski, Jozef Zajac, Krzysztof Banaszek</i>	

Chapter 4. SHIPS ROUTEING AND VESSEL TRAFFIC SERVICES

4.1. Mental Workload of the VTS Operators by Utilising Heart Rate	145
<i>Serdar Kum, Masao Furusho, Okan Duru, Tanzer Satir</i>	
4.2. Intelligent VTS	151
<i>Wlodzimierz Filipowicz</i>	
4.3. Study on Integration of VTS Simulator into Net System of Ship-handling Simulators	159
<i>Yi Zhang, Jun MA, Chaojian Shi, Qinyou Hu</i>	
4.4. Traffic Separation Schemes and Mandatory Ship Reporting System in the Baltic for the Approaches to the Polish ports in the Gulf of Gdańsk	165
<i>Bogdan Rojek, Ryszard Wawruch</i>	
4.5. New Development of Ships Routeing in Chinese Navigable Waterways	171
<i>Hui Ma, Zhaolin Wu, Zhengjiang Liu</i>	

4.6. Safety of Vessels' Traffic, Bound for Polish Ports	175
<i>Jerzy Hajduk, Jakub Montewka</i>	
Chapter 5. AUTOMATIC IDENTIFICATION SYSTEMS	
5.1. Usage AIS Data for Analyzing Ship's Motion Intensity	181
<i>Krzysztof Naus, Artur MakaR, Jaroslaw Apanowicz</i>	
5.2. AIS Contribution in Navigation Operation - Using AIS User Satisfaction Model	187
<i>Abbas Harati-Mokhtari, Philip Brooks, Alan Wall, Jin Wang</i>	
5.3. Operational Status of Polish AIS Network	195
<i>Wojciech Drozd, Marek Dziewicki, Marcin Waraksa, Lukasz Bibik</i>	
Chapter 6. ANTI-COLLISION	
6.1. The Colregs and the Princess Alice	201
<i>John Kemp</i>	
6.2. The Determination of a Minimum Critical Distance for Avoiding Action by a Stand-On Vessel as Permitted by Rule 17 a)II)	207
<i>Wladyslaw Edward Rymarz</i>	
6.3. Fuzzy Collision Threat Parameters Area (FCTPA) – a New Display Proposal	213
<i>Rafal Szlapczynski</i>	
6.4. Planned Route Based Negotiation for Collision Avoidance Between Vessels	219
<i>Qinyou Hu, Chun Yang, Haishan Chen, Baojia Xiao</i>	
6.5. Building of CBR's DB Using Ontology for a Collision Avoidance System	225
<i>Gyei-Kark Park, Woong-Gyu Kim, John L.R.M. Benedictos</i>	
Chapter 7. ELECTRONIC NAVIGATIONAL CHARTS AND ECS/ECDIS SYSTEMS	
7.1. 10 Things They Should Have Told You About ECDIS	233
<i>David Edmonds</i>	
7.2. ECDIS Operator Training	239
<i>Jochen Rudolph</i>	
7.3. Worldwide and Route-specific Coverage of Electronic Navigational Charts	245
<i>Erik Vanem, Magnus Strandmyr Eide, Rolf Skjong, Gjermund Gravir, Arve Lepsøe</i>	
7.4. A Method to Build Web Raster Chart Systems	251
<i>Qinyou Hu, Lili Yu, Jinhai Chen</i>	
7.5. Specificity of ENC Data Representation on an Archipelagic Sea Area – Example of the East Coast of the Middle Adriatic Sea Area	255
<i>Tea Duplancic Leder</i>	
7.6. Economic Analysis on Substitution of Paper Chart with ECDIS Onboard for Turkish Flag Ships.....	259
<i>Oguzhan Gurel, Ismail Deha Er</i>	

Chapter 8. TECHNICAL AIDS TO NAVIGATION

8.1. The Role of Navigational Aids Such as Radar/ARPA, ECDIS, AIS, Autopilot, and VHF on Safe Navigation at Sea	267
<i>Homayoun Yousefi</i>	
8.2. Multidimensional Presentation of Radar Image	271
<i>Mariusz Waz, Tadeusz Stupak, Andrzej Szklarski</i>	
8.3. The Process of Radar Tracking by Means of GRNN Artificial Neural Network with Dynamically Adapted Teaching Sequence Length in Algorithmic Depiction	275
<i>Andrzej Stateczny, Witold Kazimierski</i>	
8.4. Study on One Mile SART	281
<i>Shogo Hayashi, Ogawa Masayasu, Ide Manami</i>	
8.5. Gyrocompasses - their Condition and Direction of Development	285
<i>Andrzej Felski</i>	

Chapter 9. INTEGRATION OF NAVIGATION

9.1. Analytical Model of Position Uncertainty of Ship's Plan Geometry in Integrated Navigation System	291
<i>Arkadiusz Tomczak</i>	
9.2. The Research of Integrated Maritime Digital Information System	295
<i>Zhang Wei, Liu Renjie, Liu Chang</i>	
9.3. Intelligent Ship Control System	299
<i>Andrzej Lebkowski, Roman Smierzchalski, Witold Gierusz, Krzysztof Dziedzicki</i>	
9.4. On an Advanced Shipboard Information and Decision-Making System for Safe and Efficient Passage Planning	305
<i>Søren Vinther Hansen, Egil Pedersen</i>	
9.5. Distributed Navigational Alert Management	311
<i>Joachim Behnke, Christoph Becker</i>	
9.6. Combination of Navigational Equipment and VDR Based Information to Enhance Alert Management	315
<i>Michael Baldauf, Knud Benedict, Erland Wilske, Peter Grundevik, John O. Klepsvik</i>	

Chapter 10. E-NAVIGATION

10.1. The Development of E-Navigation	323
<i>David Patraiko</i>	
10.2. Polish Approach to e-Navigation Concept	327
<i>Adam Weintrit, Ryszard Wawruch, Cezary Specht, Lucjan Gućma, Zbigniew Pietrzykowski</i>	
10.3. Vision of the Decision Support Model on Board of the Vessel with Use of the Shore Based IT Tools	335
<i>Lukasz Bibik, Andrzej Krolikowski, Krzysztof Czaplewski, Daniel Duda</i>	

10.4. The Role of Operational Ocean Forecasting in e-Navigation	339
<i>Jerzy Graff</i>	
10.5. GMDSS as a Data Communication Network for e-Navigation	343
<i>Karol Korcz</i>	
 Chapter 11. WEATHER NAVIGATION AND METEOROLOGICAL ASPECTS	
11.1. Multiobjective Approach to Weather Routing	351
<i>Joanna Szlapczynska</i>	
11.2. A Numerical Prediction System for Wind and Sea Wave: A Typhoon Case	357
<i>Jau-Ming Chen, Jia-Shen Hu, Wen-Laung Huang, and Li-Hua Hsu</i>	
11.3. Numerical Simulation of Nonlinear Water Wave Problems	361
<i>D.C. Lo, Jia-Shen Hu, I-Fu Lin</i>	
11.4. A Required Data Span to Detect Sea Level Rise	367
<i>Tomasz Niedzielski, Wieslaw Kosek</i>	
11.5. Tidal Level Predictions in Reference to Their Datum, Based on Particular, Selective Sources	373
<i>Piotr Kabzinski</i>	
 Chapter 12. ASTRONAVIGATION	
12.1. Some New Dimensions in Sextant-Based Celestial Navigation. Aspects of Position Solution Reliability with Multiple Sights	381
<i>Herman Zevering</i>	
12.2. Estimation of Altitude Accuracy of Punctual Celestiale Bodies Measured with Help of Digital Still Camera	389
<i>Piotr Bobkiewicz</i>	
12.3. MAAPCNIA: a Boost to Authentic MET Instruction	395
<i>Angelica Baylon, Daniel TORRES Jr</i>	
 Chapter 13. HISTORY OF NAVIGATION	
13.1. An Important Waypoint on Passage of Navigation History: Zheng He's Sailing to West Ocean	403
<i>Jin Ding, Chaojian Shi, Adam Weintrit</i>	
 Chapter 14. METHODS AND ALGORITHMS	
14.1. Assessment of Navigational Safety in Vessel Traffic in an Open Area	413
<i>Zbigniew Pietrzykowski</i>	
14.2. The Use of Estimation of Position Coordinates with Constraints in Navigation	417
<i>Andrzej Banachowicz, Grzegorz Banachowicz</i>	

14.3. Game Based Learning for Seafarers: A Framework for Instructional Game Design for Safety in Marine Navigation	421
<i>Ioannis Sirris, Nikitas Nikitakos</i>	
14.4. Method of Synthesis of Flexible Strategies for Preventing Collisions	429
<i>Mykola Tsymbal</i>	
14.5. Ship Control in Manoeuvring Situations with Fuzzy Logic Controllers	435
<i>Leszek Morawski, Vinh Nguyen Cong</i>	
14.6. Multisensor Data Fusion in the Decision Process on the Bridge of the Vessel	443
<i>Tomasz Neumann</i>	
14.7. Reinforcement Learning in Ship Handling	447
<i>Mirosław Lacki</i>	
14.8. Accuracy of Relative Navigation in Automated Systems of Data Communication	451
<i>Milan Dzunda, V. Humenansky</i>	
14.9. E-Chartering Web Based Platforms Between Success and Failure	455
<i>Ghiorghe Batrinca</i>	
14.10. Integrated Software for Implementation of Control Systems Based on PLC Controllers	459
<i>Szymon Surma, Jerzy Mikulski</i>	

Chapter 15. MANOEUVERING IN PORT AREA AND PILOT NAVIGATION

15.1. Analysis of Ships Turn Manoeuvres in Port Water Area	465
<i>Jakub Kornacki, Wiesław Galor</i>	
15.2. An Application of ANN to Automatic Ship Berthing Using Selective Controller	471
<i>Namkyun Im, Lee Seong Keon, Bang Hyung Do</i>	
15.3. The Use of Backstepping Method to Ship Course Controller	477
<i>Anna Witkowska, Roman Smierzchalski</i>	
15.4. Some Problems of Berthing of Ships with Non-Conventional Propulsions	483
<i>Wojciech Koziol, Wiesław Galor</i>	
15.5. Depth Optimization of Designed New Ferry Berth	489
<i>Stanisław Gućma, Stefan Jankowski</i>	
15.6. The Model of Ship Movement While Touching the Sea-Bed	495
<i>Wiesław Galor</i>	
15.7. Probabilistic Model of Underkeel Clearance in Decision Making Process of Port Captain	501
<i>Lucjan Gućma, Marta Schoeneich</i>	
15.8. Construction of the Ship's Technical Failure Model to Assess its Navigational Safety	505
<i>Lucjan Gućma, Rafał Gralak</i>	
15.9. The Analysis of Possibilities How the Collision between m/v „Gdynia” and m/v „Fu Shan Hai” Could Have Been Avoided	509
<i>Andrzej Banachowicz, Piotr Wolejsza</i>	

15.10. Mooring the Ferry m/f „Gryf” in Extreme Hydro And Meteorological Conditions	513
<i>Adam Kowalski</i>	

Chapter 16. SAFETY AND SECURITY IN SEA TRANSPORTATION

16.1. On Ship Systems Multi-State Safety Analysis	519
<i>Przemyslaw Dziula, Mirosław Jurdzinski, Krzysztof Kolowrocki, Joanna Soszynska</i>	
16.2. The IMO Instruments for Ensure Safety Transportation of Dangerous Goods	525
<i>Marzena Popek, Magda Bogalecka</i>	
16.3. Safety and Environmental Concern Analysis for LNG Carriers	529
<i>Ismail Deha Er</i>	
16.4. Safety of Cargo Handling and Transport Liquefied Natural Gas by Sea. Dangerous Properties of LNG and Actual Situation of LNG Fleet	535
<i>Andrzej Starosta</i>	
16.5. The Environmental Effects of Projected Container Terminal to the Safely Manoeuvring	539
<i>Cemil Yurtoren, Okan Duru, Tanzer Satir</i>	
16.6. Smart Container Security - The E-Seal with RFID Technology	545
<i>Jin Zhang, Ya-Qing Liu, Chun-Yan Yu; Zang Cui-Fen</i>	
16.7. Safety and Security Aspects for the Effective Shipment of Radioactive Materials with Maritime Transportation	549
<i>Zuhal Er</i>	
16.8. Total Losses of Fishing Vessels Due to the Insufficient Stability	555
<i>Przemyslaw Krata</i>	
16.9. Model of Interaction of Water and Tank’s Structure in Sloshing Phenomenon	561
<i>Przemyslaw Krata</i>	
16.10. The Paris MOU on PSC, Propulsion and Auxiliary Machinery Deficiencies and the Maritime Safety	567
<i>German de Melo, Ismael Cobos</i>	

Chapter 17. POLLUTION AND ENVIRONMENT PROTECTION

17.1. Ship to Ship Operations in Cold Climate Environments	573
<i>Tor Einar Berg</i>	
17.2. The Semirara Oil Spill: Its Implications to Maritime Legislations	579
<i>Melchor Magramo</i>	
17.3. The Implementation of Oil Spill Costs Model in the Southern Baltic Sea Area to Assess the Possible Losses due to Ships Collisions	583
<i>Lucjan Gucma, Elwira Goryczko</i>	
17.4. Human Errors and Oil Pollution From Tankers	587
<i>Paulica Arsenie, Radu Hanzu-Pazara</i>	

17.5. The Model of Oil Spills Due to Ships Collisions in Southern Baltic Area	593
<i>Lucjan Gucma, Marcin Przywarty</i>	

Chapter 18. HUMAN FACTORS AND CREW RESOURCE MANAEMENT

18.1. What is Human Factors Compared to Crew Resource Management?.....	601
<i>Gunnar K. Fahlgren</i>	
18.2. Securitas Mare - Crowd and Crisis Management	605
<i>Christer Bergquist</i>	
18.3. Risk Management - Do We Really Need It in Shipping Industry?	611
<i>Kuba Szymanski</i>	
18.4. The Effectiveness of Multinational Maritime Task Groups in Shipping Protection	613
<i>Daniel Duda, Tomasz Szubrycht</i>	
18.5. Identifying the Potential Roles of Design-Based Failures on Human Errors in Shipboard Operations	617
<i>Metin Celik, Ismail Deha Er</i>	
18.6. Effects of Fatigue on Navigation Officers and SWOT Analyze for Reducing Fatigue Related Human Errors on Board	623
<i>Ozcan Arslan, Ismail Deha Er</i>	
18.7. Investigation The Root Causes of Seafarers' Turnover and its Impact on the Safe Operation of the Ship	629
<i>Fatih Turker, Ismail Deha Er</i>	
18.8. On the Relationships Between Indexes of Merchant Vessel Accidents and Indexes of Economy and Shipping	635
<i>Zhongyi Zheng, Guanghui Li, Feng Hejun</i>	
18.9. Analysis of Sea Accidents in 2006	639
<i>Magda Bogalecka, Marzena Popek</i>	
18.10. Statistical Studies on Marine Accidents Happened in the Bohai Sea	643
<i>Zhaolin Wu, Guanghui Li, Jingjun Zhao</i>	
18.11. Analysis of Factors Affecting the Evacuation of People from Vessels in Life-Endangering Situations	647
<i>Dorota Lozowicka</i>	

Chapter 19. MARITIME EDUCATION AND TRAINING

19.1. The MarEng Project – A Tool Enhancing Safety in Navigation and Maritime Transport	653
<i>Barbara Katarzynska</i>	
19.2. Project „E-Marine”, a New Approach for Port and Maritime Activities	655
<i>Doina Carp</i>	
19.3. Examining and Promoting Chinese Seafarer Education and Training	659
<i>Bao Junzhong, Xu Mingqiang</i>	

19.4.	Information and Communication Technology (ICT) Training Application for MHET Institutions <i>Muhsin Kadioglu</i>	663
19.5.	Economic Constraints on Maritime Training and Education in Turkey..... <i>Kadir Cicek, Ismail Deha Er</i>	669
19.6.	Social Impacts on the Maritime Education – a Case Study National Kaohsiung Marine University in Taiwan <i>Jia-Shen Hu, Shyy Woei Chang, Che-Tsung Chen</i>	673
19.7.	The Improvement of Higher MET at Vietnam Maritime University by Enhancement of the Linkage with Industries and International Relations <i>Dang Wan Uy, Pham Xuan Duong</i>	679
19.8.	Reform of Technical Subject Examination with Multiple Choice - Essay Writing Exam Forms ... <i>Ngo Thien Hoa</i>	685
19.9.	Role and Importance of Simulator Instructor <i>Asghar Ali</i>	691
19.10.	Participation of Polish Maritime Educational Institutions in Implementing Ideas of the EU Green Paper <i>Aleksander Walczak</i>	695

Chapter 20. STCW IMPLEMENTATION AND MARITIME POLICY

20.1.	The Public Private Partnership Model on which the National Maritime College of Ireland was Conceived and Operates <i>Eamonn Doyle</i>	703
20.2.	The STCW 1995 Convention: Awareness Attitude and Compliance among Seafarers <i>Ralph Pador</i>	709
20.3.	The STCW Convention & the Manning Resolution Need Amendment & Improvement <i>Fazlur Chowdhury</i>	713
20.4.	Quality Standards System: Status, Compliance and Adherence in Maritime Institutions in the Philippines..... <i>Melchor Magramo, Flora V. Javier, Marian Lazaro</i>	719
20.5.	The Study on Social Security of Seamen <i>Zhang Li</i>	725
20.6.	Foundation for the Promotion of Technical Education..... <i>Stanislaw Zurkiewicz</i>	729

WORLD HYDROGRAPHY DAY

	The IHO Supporting Maritime Demands. Report on the Occasion of Celebrating the World Hydrography Day with theme for this year: “Electronic Navigational Charts (ENCs); an Essential Element of Safety at Sea and Efficient Maritime Operations” <i>Alexandros Maratos, Adam Weintrit</i>	733
--	---	-----

ROUND TABLE PANEL SESSION

Galileo: A significant Benefit to Marine Navigation? 741
Vidal Ashkenazi

INDEX 743
