The Offensive Attacker Mindset	20
Comfort and Risk	22
Planning Pressure and Mental Agility	23
Emergency Conditioning	26
Defensive Attacker Mindset	31

Consistency and Regulation	31
Anxiety Control	32
Recovery, Distraction, and Maintenance	34
OAMs and DAMs Come Together	35
Summary	35
Key Message	36
<b>Chapter 3: The Attacker Mindset Framework</b>	37
Development	39
Phase 1	43
Phase 2	47
Application	48
Preloading	51
“Right Time, Right Place” Preload	51
Ethics	52
Intellectual Ethics	53
Reactionary Ethics	53
Social Engineering and Security	57
Social Engineering vs. AMs	59
Summary	60
Key Message	60
<b>PART II: THE LAWS AND SKILLS</b>	63
<b>Chapter 4: The Laws</b>	65
Law 1: Start with the End in Mind	65
End to Start Questions	66
Robbing a Bank	68
Bringing It All together	70
The Start of the End	71
Clarity	71
Efficiency	72
The Objective	72
How to Begin with the End in Mind	73
Law 2: Gather, Weaponize, and Leverage Information	75
Law 3: Never Break Pretext	77
Law 4: Every Move Made Benefits the Objective	80
Summary	81
Key Message	82

<b>Chapter 5: Curiosity, Persistence, and Agility</b>	83
Curiosity	86
The Exercise: Part 1	87
The Exercise: Part 2	89
Persistence	92
Skills and Common Sense	95
Professional Common Sense	95
Summary	98
Key Message	98
<b>Chapter 6: Information Processing: Observation and Thinking Techniques</b>	99
Your Brain vs. Your Observation	102
Observation vs. Heuristics	107
Heuristics	107
Behold Linda	108
Observation vs. Intuition	109
Using Reasoning and Logic	112
Observing People	114
Observation Exercise	116
AMs and Observation	122
Tying It All Together	123
Critical and Nonlinear Thinking	124
Vector vs. Arc	127
Education and Critical Thinking	128
Workplace Critical Thinking	128
Critical Thinking and Other Psychological Constructs	129
Critical Thinking Skills	130
Nonlinear Thinking	131
Tying Them Together	132
Summary	133
Key Message	134
<b>Chapter 7: Information Processing in Practice</b>	135
Reconnaissance	136
Recon: Passive	145
Recon: Active	149
OSINT	150
OSINT Over the Years	150

Intel Types	153
Alternative Data in OSINT	154
Signal vs. Noise	155
Weaponizing of Information	158
Tying Back to the Objective	160
Summary	170
Key Message	170
<b>PART III: TOOLS AND ANATOMY</b>	171
<b>Chapter 8: Attack Strategy</b>	173
Attacks in Action	175
Strategic Environment	177
The Necessity of Engagement and Winning	179
The Attack Surface	183
Vulnerabilities	183
AMs Applied to the Attack Vectors	184
Phishing	184
Mass Phish	185
Spearphish	186
Whaling	187
Vishing	190
Smishing/Smsing	195
Impersonation	196
Physical	199
Back to the Manhattan Bank	200
Summary	203
Key Message	203
<b>Chapter 9: Psychology in Attacks</b>	205
Setting The Scene: Why Psychology Matters	205
Ego Suspension, Humility & Asking for Help	210
Humility	215
Asking for Help	216
Introducing the Target-Attacker Window Model	217
Four TAWM Regions	218
Target Psychology	221
Optimism Bias	225

Confirmation Bias and Motivated Reasoning	228
Framing Effect	231
Thin-Slice Assessments	233
Default to Truth	236
Summary	239
Key Message	239
<b>PART IV: AFTER AMs</b>	<b>241</b>
<b>Chapter 10: Staying Protected—The Individual</b>	<b>243</b>
Attacker Mindset for Ordinary People	243
Behavioral Security	246
Amygdala Hijacking	250
Analyze Your Attack Surface	252
Summary	256
Key Message	256
<b>Chapter 11: Staying Protected—The Business</b>	<b>257</b>
Indicators of Attack	258
Nontechnical Measures	258
Testing and Red Teams	261
Survivorship Bias	261
The Complex Policy	263
Protection	264
Antifragile	264
The Full Spectrum of Crises	266
AMs on the Spectrum	268
Final Thoughts	269
Summary	270
Key Message	271
Index	273
