

# Contents

<b>Sequence Mining and Property Verification for Fault-Localization in Simulink Models</b> .....	1
Safa Aloui Dkhil, Mohamed Taha Bennani, Manel Tekaya, and Houda Ben Attia Sethom	
<b>Handwritten Text Lines Segmentation Using Two Column Projection</b> .....	11
Tomasz Babczyński and Roman Ptak	
<b>Convolutional Neural Networks for Dot Counting in Fluorescence in Situ Hybridization Imaging</b> .....	21
Adrian Banachowicz, Anna Lis-Nawara, Michał Jeleń, and Łukasz Jeleń	
<b>Classification of Local Administrative Units in Poland: Spatial Approach</b> .....	31
Jacek Batóg and Barbara Batóg	
<b>Development of Methodology for Counteraction to Cyber-Attacks in Wireless Sensor Networks</b> .....	41
Olexander Belej, Kamil Staniec, Tadeusz Więckowski, Mykhaylo Lobur, Oleh Matviykyv, and Serhiy Shcherbovskykh	
<b>The Need to Use a Hash Function to Build a Crypto Algorithm for Blockchain</b> .....	51
Olexander Belej, Kamil Staniec, and Tadeusz Więckowski	
<b>Common Criteria Vulnerability Assessment Ontology</b> .....	61
Andrzej Białas	
<b>Risk Management Approach for Revitalization of Post-mining Areas</b> .....	71
Andrzej Białas	

<b>CVE Based Classification of Vulnerable IoT Systems</b> .....	82
Grzegorz J. Blinowski and Paweł Piotrowski	
<b>Reliability and Availability Analysis of Critical Infrastructure Composed of Dependent Systems</b> .....	94
Agnieszka Blokus and Przemysław Dziula	
<b>Influence of Component Dependency on System Reliability</b> .....	105
Agnieszka Blokus and Krzysztof Kołowrocki	
<b>Tool for Metamorphic Testing</b> .....	115
Iłona Bluemke and Paweł Kamiński	
<b>Dependability of Web Sites</b> .....	125
Dariusz Caban	
<b>Dependability Analysis of Systems Based on the Microservice Architecture</b> .....	133
Dariusz Caban and Tomasz Walkowiak	
<b>Using Domain Specific Languages and Domain Ontology in Workflow Design in Syndatis BPM4 Environment</b> .....	143
Wiktor B. Daszczuk, Henryk Rybiński, and Piotr Wilkin	
<b>GPU Implementation of the Parallel Ising Model Algorithm Using Object-Oriented Programming</b> .....	155
Aleksander Dawid	
<b>Hydro-Meteorological Change Process Impact on Oil Spill Domain Movement at Sea</b> .....	165
Ewa Dąbrowska and Krzysztof Kołowrocki	
<b>Subjective Quality Evaluation of Underground BPL-PLC Voice Communication System</b> .....	176
Grzegorz Debita, Przemysław Falkowski-Gilski, Marcin Habrych, Bogdan Miedzinski, Bartosz Polnik, Jan Wandzio, and Przemysław Jedlikowski	
<b>Evaluation and Improvement of Web Application Quality – A Case Study</b> .....	187
Anna Derezińska and Krzysztof Kwaśnik	
<b>Scheduling Tasks with Uncertain Times of Duration</b> .....	197
Dariusz Dorota	
<b>The Concept of Management of Grid Systems in the Context of Parallel Synthesis of Complex Computer Systems</b> .....	210
Mieczysław Drabowski	

<b>Performance Assessment of Selected Techniques and Methods</b>	
<b>Detecting Duplicates in Data Warehouses</b> . . . . .	221
Paweł Dymora and Mirosław Mazurek	
<b>An Overview of DoS and DDoS Attack Detection Techniques</b> . . . . .	233
Mateusz Gniewkowski	
<b>Biometric Data Fusion Strategy for Improved Identity Recognition</b> . . . .	242
Zbigniew Gomolka, Bogusław Twarog, Ewa Zeslawska, and Artur Nykiel	
<b>Non-homogeneous Four State Semi-Markov Reliability Model of Operation Process</b> . . . . .	252
Franciszek Grabski	
<b>The Efficiency of Energy Storage Systems Use for Energy Cost Mitigation Under Electricity Prices Changes</b> . . . . .	263
Alexander Grakovski and Aleksandr Krivchenkov	
<b>Capacitated Open Vehicle Routing Problem with Time Couplings</b> . . . .	273
Radosław Idzikowski	
<b>Mobile Application Testing and Assessment</b> . . . . .	283
Marcin J. Jeleński and Janusz Sosnowski	
<b>Crypto-ECC: A Rapid Secure Protocol for Large-Scale Wireless Sensor Networks Deployed in Internet of Things</b> . . . . .	293
Wassim Jerbi, Abderrahmen Guerhazi, and Hafedh Trabelsi	
<b>Redundancy Management in Homogeneous Architecture of Power Supply Units in Wireless Sensor Networks</b> . . . . .	304
Igor Kabashkin	
<b>Successive-Interference-Cancellation-Inspired Multi-user MIMO Detector Driven by Genetic Algorithm</b> . . . . .	315
Mohammed J. Khafaji and Maciej Krasicki	
<b>The Availability Models of Two-Zone Physical Security System Considering Cyber Attacks</b> . . . . .	325
Vyacheslav Kharchenko, Yuriy Ponochovnyi, Al-Khafaji Ahmed Waleed, Artem Boyarchuk, and Ievgen Brezhniev	
<b>Automatically Created Statistical Models Applied to Network Anomaly Detection</b> . . . . .	334
Michał Kierul, Tomasz Kierul, Tomasz Andrysiak, and Łukasz Saganowski	
<b>Sparse Representation and Dictionary Learning for Network Traffic Anomaly Detection</b> . . . . .	344
Tomasz Kierul, Michał Kierul, Tomasz Andrysiak, and Łukasz Saganowski	

<b>Changing System Operation States Influence on Its Total Operation Cost</b> . . . . .	355
Krzysztof Kołowrocki and Beata Magryta	
<b>Graph-Based Street Similarity Comparing Method</b> . . . . .	366
Konrad Komnata, Artur Basiura, and Leszek Kotulski	
<b>Hybrid Method of the Radio Environment Map Construction to Increase Spectrum Awareness of Cognitive Radios</b> . . . . .	378
Krzysztof Kosmowski and Janusz Romanik	
<b>Group Authorization Using Chinese Remainder Theorem</b> . . . . .	389
Tomasz Krokosz and Jarogniew Rykowski	
<b>Optimal Transmission Technique for DAB+ Operating in the SFN Network</b> . . . . .	400
Sławomir Kubal, Michał Kowal, Piotr Piotrowski, and Kamil Staniec	
<b>Dynamic Neighbourhood Identification Based on Multi-clustering in Collaborative Filtering Recommender Systems</b> . . . . .	410
Urszula Kuźelewska	
<b>Increasing the Dependability of Wireless Communication Systems by Using FSO/RF Technology</b> . . . . .	420
Robert Matyszkiewicz, Janusz Mikołajczyk, Paweł Kaniewski, and Dariusz Szabra	
<b>Card Game Bluff Decision Aided System</b> . . . . .	430
Jacek Mazurkiewicz and Mateusz Pawelec	
<b>Intelligent Inference Agent for Safety Systems Events</b> . . . . .	441
Jacek Mazurkiewicz, Tomasz Walkowiak, Jarosław Sugier, Przemysław Śliwiński, and Krzysztof Helt	
<b>Wi-Fi Communication and IoT Technologies to Improve Emergency Triage Training</b> . . . . .	451
Jan Nikodem, Maciej Nikodem, Ryszard Klempous, and Paweł Gawłowski	
<b>Robust Radio Communication Protocol for Traffic Analysis Application</b> . . . . .	461
Maciej Nikodem, Tomasz Surmacz, Mariusz Ślabicki, Dominik Hofman, Piotr Klimkowski, and Cezary Dołęga	
<b>Automatic Recognition of Gender and Genre in a Corpus of Microtexts</b> . . . . .	472
Adam Pawłowski and Tomasz Walkowiak	
<b>Searching Algorithm for an Optimal Location of Warehouses in a Distribution Network for Predicted Order Variability</b> . . . . .	482
Henryk Piech and Grzegorz Grodzki	

<b>Tackling Access Control Complexity by Combining XACML and Domain Driven Design</b> .....	493
Paweł Rajba	
<b>Large Scale Attack on Gravatars from Stack Overflow</b> .....	503
Przemysław Rodwald	
<b>Safety Analysis for the Operation Process of Electronic Systems Used Within the Mobile Critical Infrastructure in the Case of Strong Electromagnetic Pulse Impact</b> .....	513
Adam Rosiński, Jacek Paś, Jarosław Łukasiak, and Marek Szulim	
<b>Job Scheduling with Machine Speeds for Password Cracking Using Hashtopolis</b> .....	523
Jarosław Rudy and Przemysław Rodwald	
<b>Standard Dropout as Remedy for Training Deep Neural Networks with Label Noise</b> .....	534
Andrzej Rusiecki	
<b>State Assignment of Finite-State Machines by Using the Values of Output Variables</b> .....	543
Valery Salauyou and Michal Ostapczuk	
<b>Integration of Enterprise Resource Planning (ERP) System in Value Based Management of the Corporation</b> .....	554
Elena V. Savenkova, Alexander Y. Bystryakov, Oksana A. Karpenko, Tatiana K. Blokhina, and Andrey V. Guirinsky	
<b>Landscape Imaging of the Discrete Solution Space</b> .....	565
Czesław Smutnicki	
<b>Smart Services for Improving eCommerce</b> .....	575
Andrzej Sobecki, Julian Szymański, Henryk Krawczyk, Higinio Mora, and David Gil	
<b>Probabilistic Modelling of Reliability and Maintenance of Protection Systems Incorporated into Internal Collection Grid of a Wind Farm</b> .....	585
Robert Adam Sobolewski	
<b>On the Influence of the Coding Rate and SFN Gain on DAB+ Coverage</b> .....	596
Kamil Staniec, Sławomir Kubal, Michał Kowal, and Piotr Piotrowski	
<b>Intra-round Pipelining of KECCAK Permutation Function in FPGA Implementations</b> .....	606
Jarosław Sugier	

<b>Investigation and Detection of GSM-R Interference Using a Fuzzy Hierarchical Model</b> .....	616
Marek Sumiła	
<b>Using Convolutional Network Visualisation to Determine the Most Significant Pixels</b> .....	626
Tomasz Szandała	
<b>Android Methods Hooking Detection Using Dalvik Code and Dynamic Reverse Engineering by Stack Trace Analysis</b> .....	633
Michał Szczepanik, Michał Kędziora, and Ireneusz Józwiak	
<b>Reliability of Ultrasonic Distance Measurement in Application to Multi-Rotor MAVs</b> .....	642
Bogusław Szlachetko and Michał Lower	
<b>Determining the Minimal Number of Images Required to Effectively Train Convolutional Neural Networks</b> .....	652
Kamil Szyć	
<b>Heuristic Allocation Strategies for Dependable Scheduling in Heterogeneous Computing Environments</b> .....	662
Victor Toporkov and Dmitry Yemelyanov	
<b>Prediction of Selected Personality Traits Based on Text Messages from Instant Messenger</b> .....	672
Marek Woda and Jakub Batogowski	
<b>Computer Aided Urban Landscape Design Process</b> .....	686
Tomasz Zamojski	
<b>Choosing Exploration Process Path in Data Mining Processes for Complex Internet Objects</b> .....	700
Teresa Zawadzka and Wojciech Waloszek	
<b>Author Index</b> .....	711
