List of Contributors.....	xiii
Preface.....	xv

CHAPTER 1 General Characteristics of the Underwater Environment..... 1

L. Bjørnø, M.J. Buckingham

1.1 Introduction.....	1
1.2 A Brief Exposition of the History of Underwater Acoustics.....	5
1.3 International Standard Units.....	15
1.4 The Decibel Scales.....	16
1.5 Features of Oceanography.....	18
1.6 Sonar Equations.....	66
1.7 Abbreviations.....	75
Acknowledgment.....	76
References.....	76

CHAPTER 2 Sound Propagation.....85

M.J. Buckingham

2.1 The Concept of Waves.....	85
2.2 Sound Propagation in a Viscous Fluid.....	107
2.3 Sound Waves and Shear Waves in Marine Sediments.....	117
2.4 Source or Receiver in Motion.....	128
2.5 Sound Reflection and Transmission at a Fluid-Fluid Boundary.....	136
2.6 The "Ideal" Waveguide.....	156
2.7 The Pekeris Channel.....	162
2.8 Three-Dimensional Propagation.....	170
Acknowledgment.....	180
References.....	180

CHAPTER 3 Sound Propagation Modeling..... 185

S. Ivansson

3.1 Ray Models.....	188
3.2 Wave Number Integration or Spectral Methods.....	196
3.3 Normal Mode Propagation Models.....	208
3.4 Parabolic Equation Methods.....	225
3.5 Finite-Difference and Finite-Element Methods.....	239
3.6 3-D Sound Propagation Models.....	251

List of Abbreviations and Symbols	263
Acknowledgments.....	264
References.....	264
CHAPTER 4 Absorption of Sound in Seawater	273
<i>T.H. Neighbors III</i>	
4.1 Physics and Phenomena.....	273
4.2 Experimental Data.....	275
4.3 Sound Absorption Mechanisms.....	283
4.4 Formulas and Expressions.....	288
4.5 Symbols and Abbreviations.....	291
References.....	292
CHAPTER 5 Scattering of Sound	297
<i>L. Bjørnø</i>	
5.1 Physics and Phenomena.....	297
5.2 Scattering From Point-Like Objects.....	303
5.3 Scattering From Extended, Nearly Plane, Rough Surfaces	318
5.4 Theoretical Basis for Scattering Calculations	332
5.5 Scattering From Curved, Rough Surfaces	340
5.6 Reverberation	346
5.7 Symbols and Abbreviations.....	353
References.....	358
CHAPTER 6 Ambient Noise	363
<i>L. Bjørnø</i>	
6.1 Physics and Phenomena.....	363
6.2 Sources of Ambient Noise	364
6.3 Spectra of Ambient Noise.....	381
6.4 Directivity of Ambient Noise	384
6.5 Coherence of Ambient Noise.....	388
6.6 Self-Noise.....	390
6.7 Amplitude Distributions for Underwater Noise.....	392
6.8 Symbols and Abbreviations.....	397
References.....	399
CHAPTER 7 Shallow-Water Acoustics	403
<i>J.F. Lynch, A.E. Newhall</i>	
7.1 What Is Shallow-Water Acoustics?.....	403
7.2 Physics and Phenomena.....	406
7.3 Some Additional Topics of Interest in Shallow-Water Acoustics.....	448
7.4 Some Newer Topics.....	455

List of Acronyms.....	458
List of Symbols in Equations.....	459
References.....	460
Appendix 7.A1.....	463
CHAPTER 8 The Seafloor	469
<i>M.D. Richardson, D.R. Jackson</i>	
8.1 Background and History.....	470
8.2 The Origin and Nature of Seafloor Sediments.....	471
8.3 Acoustics of Sediments	471
8.4 Model for Sound Scattering by the Seafloor.....	482
8.5 Sediment Physical Properties.....	494
8.6 Sediment Geoacoustic Properties	507
8.7 Seafloor Roughness	517
8.8 Seafloor Heterogeneity	522
8.9 Seafloor Identification and Characterization by Use of Sonar.....	526
List of Symbols.....	540
References.....	543
CHAPTER 9 Inverse Methods in Underwater Acoustics.....	553
<i>N.R. Chapman</i>	
9.1 Introduction.....	553
9.2 Some Basic Mathematical Relationships.....	555
9.3 Source Localization by Matched Field Processing.....	556
9.4 Geoacoustic Inversion	559
9.5 Ocean Acoustic Tomography.....	576
References.....	581
CHAPTER 10 Sonar Systems.....	587
<i>L. Bjørnø</i>	
10.1 Sonar System Applications.....	588
10.2 Sonar System Types.....	591
10.3 Single-Beam Echo Sounders.....	664
10.4 Multibeam Echo Sounders.....	672
10.5 Side-Scan Sonar	689
10.6 Synthetic Aperture Sonar	696
10.7 Other Sonar Types	701
10.8 Transducer Calibration	706
10.9 Sonar System Example Calculations	717
10.10 Sonar Design Calculations.....	723
10.11 Symbols and Abbreviations	736
References.....	738

CHAPTER 11	Signal Processing.....	743
	<i>D.A. Abraham</i>	
11.1	Background and Definitions	743
11.2	Characterizing the Signal and Noise	749
11.3	Filtering.....	759
11.4	Detection	767
11.5	Estimation.....	786
	References.....	804
CHAPTER 12	Bio- and Fishery Acoustics	809
	<i>Ph. Blondel</i>	
12.1	Introduction.....	809
12.2	Marine Life: From Whales to Plankton	810
12.3	Acoustic Scattering by Marine Life	811
12.4	Active Imaging Systems	824
12.5	Marine Life and Sound.....	835
12.6	Passive Acoustic Monitoring	840
12.7	Selected Practical Applications	843
12.8	Conclusions: Future Developments.....	847
	References.....	849
CHAPTER 13	Finite-Amplitude Waves.....	857
	<i>L. Bjørnø</i>	
13.1	Physics and Nonlinear Phenomena	858
13.2	Nonlinear Underwater Acoustics	866
13.3	Underwater Explosions.....	878
13.4	List of Symbols and Abbreviations.....	884
	References.....	886
CHAPTER 14	Underwater Acoustic Measurements and Their Applications.....	889
	<i>L. Bjørnø</i>	
14.1	Introduction.....	889
14.2	Acoustics and Marine Renewable Energy Developments ...	890
14.3	Underwater Acoustics in Nuclear-Test-Ban Treaty Monitoring	894
14.4	Characterization of Noise From Ships	899
14.5	Underwater Soundscapes.....	904
14.6	Underwater Acoustic Communications.....	908
14.7	Underwater Archaeology	913
14.8	Applications of Underwater Acoustics in Polar Environments.....	917

14.9	Tank Experiments.....	923
14.10	Acoustic Positioning at Sea.....	927
14.11	Ocean Observing Systems and Ocean Observatories, Oceanographers, and Acousticians—A Personal Perspective.....	931
14.12	Applications of Underwater Acoustics to Military Purposes	934
	References.....	940
	Index.....	949
