Introduction

Introduction	7
The circulation determinants of electricity production from wind energy in Western Pomerania	9
Monika LISOWSKA, Elwira ŻMUDZKA	
Variability of atmospheric circulation in Euro-Atlantic region 1900–2012	29
Michał MAROSZ	
Bio-thermal conditions on the campus of the University of Gdansk in the years 2014–2015	49
Małgorzata OWCZAREK	
The changes of water resources in Belarus	63
Alexander VOLCHIAK, Ivan KIRVEL, Sergey PARFOMUK	
Spatial and functional integration of a water resources management system on the example of the Poznań Metropolis	73
Renata GRAF	
Clastic sediment transport renewal below Włocławek Reservoir	93
Michał HABEL, Zygmunt BABIŃSKI, Dawid SZATTEN, Sergey CHALOV, Zakhar ROZLAH, Michael MÄRKER	
Long-term changes in sea level variability at the Baltic coast	115
Katarzyna J. MAROSZ	
Multivariate methods of data analysis in assessment of sea impact on the water level in the downstream Odra River system and the Szczecin Lagoon	131
Halina KOWALEWSKA-KALKOWSKA	

The influence of forms of peat extraction on present hydrological conditions of baltic raised bogs	149
Filip DUDA, Katarzyna JERECZEK-KORZENIEWSKA, Joanna JOKIEL, Ewa WOŹNIAK	
Changes in the hydrochemical regime in Lake Jamno due to hydrotechnical structures	165
Roman CIEŚLIŃSKI	
The study of structural, functional and visual landscape features transformation and trends in landscape management and protection around the Tricity – a case study of the Gdańsk – Kartuzy transect	183
Mariusz KISTOWSKI	
Classification of cities on the basis of demographic factors in the core area and the Larger Urban Zone	203
Adam GÓRSKI	
The administrative function in the Polish settlement geography research	217
Wioletta SZYMAŃSKA	
Urban space and the needs of people with disabilities. The case of Gdynia	251
Aleksandra CICHARSKA, Aleksandra SZWABA	
Structural and geographic analysis as a tool in determining specialization and dominating industries in the economy of Polish regions	265
Ewa NOWAK	
The determinants of enterprise development in small towns. The geographical perspective	277
Anita KULAWIAK
