

## CONTENTS

### **Arkadiusz Adamczyk**

A concept of minimizing an electric power supply system  
for portable gear and arms ..... 5

### **Jerzy Garus**

Nonlinear control of underwater robotic vehicle in plane motion ..... 15

### **Franciszek Grabski**

Concept of semi-Markov process ..... 25

### **Wojciech Jurczak**

Study of the corrosion resistance of ship aluminium alloys ..... 37

### **Zygmunt Kitowski, Ryszard Soliński**

Application of domestic unmanned surface vessels in the area of internal  
security and maritime economy — capacities and directions for development ..... 67

### **Tomasz Leszczyński**

The effect of interference parameters on the exploitation capabilities  
of an underwater vehicle ..... 85

### **Piotr Szymak**

Research on biomimetic underwater vehicles undertaken at institute  
of electrical engineering and automatics ..... 107

### **Zbigniew Tałaśka**

The construction of a breathing simulator for research of the diving breathing  
apparatus in compliance with the Pn-En 250:2014 standard ..... 121

### **Zdzisław Zatorski**

Special marine steels and constructional-ballistic shields designed PNA ..... 131
