

CONTENTS

CHAPTER I

IRON

	Page
Ores of Iron - - - - -	1
The Metallurgy of Iron - - - - -	3
The Blast-furnace - - - - -	4
Chemical Changes in the Blast-furnace - - - - -	5
Pig-iron Fractures - - - - -	6
Compositions of Pig-irons - - - - -	7
Cast Iron and Iron Castings - - - - -	9
Moulding Sands - - - - -	10
Effect of Impurities on Cast Iron - - - - -	12
Phosphoric Cast Irons - - - - -	15
Sulphur in Cast Iron - - - - -	16
Annealing of Castings - - - - -	16
Growth of Cast Iron - - - - -	16
Alloy Cast Irons: Nickel, Chromium - - - - -	17
Malleable Cast Iron - - - - -	20
The Conversion of Pig-iron into Wrought Iron - - - - -	22
The Puddling or Pig-boiling Process - - - - -	23
Nature and Uses of Wrought Iron - - - - -	24
Other Kinds of Iron - - - - -	25

CHAPTER II

STEEL—ITS MANUFACTURE, PROPERTIES, AND USES

The Crucible Process - - - - -	27
The Bessemer Process - - - - -	28
Refractory Materials: Acid, Basic, and Neutral - - - - -	29
The Acid Bessemer Process - - - - -	31
The Steels produced by the Acid Bessemer Process - - - - -	33
American and Swedish Bessemer Practice - - - - -	33
The Basic Bessemer Process - - - - -	34
Uses of Basic Bessemer Steel - - - - -	36
The Siemens-Martin Open-hearth Process - - - - -	36

	Page
The Acid Siemens Process - - - - -	37
The Steels produced in Acid Open-hearth Furnaces - - - - -	40
The Basic Siemens Process - - - - -	40
The Steels made in the Basic Siemens Furnace - - - - -	42
Swedish Open-hearth Furnace Practice - - - - -	42
The Manufacture of Steel in the Electric Furnace - - - - -	42
Basic Electric Furnace Practice - - - - -	43
The Melting-down Period - - - - -	43
Modifications of the Electric Process - - - - -	46
The Steels produced in the Electric Furnace - - - - -	47
Acid Electric Furnace Practice - - - - -	48
The High-frequency Electric Furnace - - - - -	48
Steel Ingots—Their Solidification and Associated Phenomena - - - - -	49
Blow-holes - - - - -	50
Pipe in Steel Ingots - - - - -	51
Influence of Shape of Mould on Pipe - - - - -	52
The Influence of Casting Temperature on the Properties of Steel Ingots - - - - -	54
Methods of Casting - - - - -	56
Slag Inclusions - - - - -	57
Cracks - - - - -	57
Sulphur Prints - - - - -	58
Macro-etching - - - - -	58
The Hot-working of Steel - - - - -	59
Forging - - - - -	60
Rolling - - - - -	61
Drop-forging - - - - -	62

CHAPTER III

THE CONSTITUTION OF METALLIC SYSTEMS

Solutions - - - - -	65
Thermal Phenomena pertaining to Solution - - - - -	67
Unsaturated, Saturated, and Supersaturated Solutions - - - - -	67
Mixtures of Liquids - - - - -	68
Cooling Curves of Pure Metals and Alloys - - - - -	71
Undercooling - - - - -	71
The Diagram of Thermal Equilibrium—Eutectics - - - - -	72
The Structures of Pure Metals and Alloys - - - - -	74
Eutectic Structures - - - - -	76
Other Equilibrium Diagrams - - - - -	77
Intermetallic Compounds - - - - -	80
Peritectic Transformations - - - - -	81
Ternary Alloys - - - - -	84
Changes which occur during Cooling after Solidification is Complete - - - - -	84
Allotropy - - - - -	84
Recrystallization from Solid Solutions - - - - -	87

CHAPTER IV

THE METALLOGRAPHY, HEAT-TREATMENT, AND
PROPERTIES OF IRON AND STEEL

	Page
Preparation of Ferrous Specimens for Micro-examination - - - -	89
Properties of Iron - - - - -	90
The Influence of Carbon on Iron - - - - -	90
The Iron-iron-carbide Equilibrium Diagram - - - - -	92
Influence of other Elements usually present in Steel: Manganese, Silicon, Sulphur and Phosphorus - - - - -	97
The Annealing of Steel - - - - -	101
Faults in Annealing: Under-annealing, Over-annealing, Overheating and Burning - - - - -	103
Normalizing - - - - -	106
Quenching, and its Effects on the Structure of Steel: Martensite, Troostite, Sorbite - - - - -	106
Effects of Tempering on Quenched or Hardened Steel - - - - -	109
Quenching Media - - - - -	111
Effect of Mass on Heat-treatment - - - - -	113
Heating - - - - -	116
Quenching - - - - -	117
Tempering - - - - -	118

CHAPTER V

“SPECIAL” STEELS AND OTHER FERROUS
ALLOYS

Chromium Steels - - - - -	120
Nickel-iron Alloys: Invar, Permalloy, Mumetal - - - - -	123
Nickel Steels - - - - -	126
Nickel-chrome Steels - - - - -	129
Air-hardening Nickel-chrome Steels - - - - -	135
Austenitic Nickel Steels - - - - -	136
Tungsten Steels - - - - -	137
Cobalt Steels - - - - -	138
Note on the Magnetization of Permanent Magnets - - - - -	140
Silicon Steels - - - - -	140
Manganese Steels - - - - -	141
Molybdenum and Vanadium Steels - - - - -	145
Tool Steels and their Treatments. High-speed Steels - - - - -	146
Faults in the Treatment of Tool Steels - - - - -	149
High-speed Steels - - - - -	151
Treatment of High-speed Steel - - - - -	154
The Hardening of High-speed Steel - - - - -	156
Other Tungsten Alloys used for Tools - - - - -	158
Case-hardening Steels - - - - -	158
Carburizing - - - - -	160
Heat-treatment of Case-hardened Parts - - - - -	162
First Quenching - - - - -	162

	Page
Second Quenching - - - - -	163
Alternative Treatments of Case-hardened Parts - - - - -	164
Causes of Failure in Case-hardened Parts - - - - -	165
Alloy Case-hardening Steels - - - - -	166
Nickel-chrome Case-hardening Steels - - - - -	168
The Effect of Nitrogen on Steel, and the Case-hardening of Steel by Nitrogen - - - - -	170

CHAPTER VI

STAINLESS OR RUST-RESISTING STEELS

Corrosion - - - - -	172
The Rusting of Iron and other Metals - - - - -	173
Passivity - - - - -	175
Stainless Steels - - - - -	176
The Welding of Stainless Steel and Iron - - - - -	178
Influence of other Elements on the Properties of Stainless Steel and Iron: Silicon, Nickel - - - - -	179
The Influence of Temperature on the Properties of Steel - - - - -	181
Heat-resisting Alloys - - - - -	181
Creep - - - - -	184
The Cold-working of Metals - - - - -	188
The Cold-working of Steel - - - - -	191
Acid-cleaning or "Pickling" - - - - -	192
Influence of various Factors on the Cold-drawing of Steel - - - - -	193
Influence of Tempering on the Properties of Cold-drawn Steels - - - - -	196
Effects of Annealing on the Properties of Cold-drawn Steels - - - - -	199
Defects in Cold-drawn Wire - - - - -	200
Cold-rolling - - - - -	201
Cold-worked Alloy Steels - - - - -	205
Note on the Investigation of Failures - - - - -	206

CHAPTER VII

NON-FERROUS ENGINEERING ALLOYS

Copper and its Alloys - - - - -	209
The Properties of Copper - - - - -	211
Effect of Impurities - - - - -	211
Effect of Cuprous Oxide - - - - -	212
Effect of Arsenic - - - - -	213
Effects of other Impurities: Iron, Antimony, Phosphorus, Sulphur, Bismuth, Tellurium, Silicon - - - - -	214
Brasses - - - - -	215
α - β and β Brasses: Muntz metal - - - - -	218
Annealing of α - β Brass - - - - -	220
Season Cracking - - - - -	222
Effects of other Elements on the Properties of the Brasses: Lead, Tin, Man- ganese, Nickel, Phosphorus, Arsenic, Antimony, Bismuth - - - - -	222
The Bronzes - - - - -	227
α Bronzes - - - - -	228

CONTENTS

	xv
	Page
Gun-metal - - - - -	230
Other Bronzes: α - δ Bronzes, Lead-bronzes, Phosphor-bronzes, Silicon-bronze	232
Effect of other Elements on the Properties of Bronze - - -	235
Other Alloys of Copper - - - - -	235
Copper-nickel Alloys: Cupro-nickel, "Constantan", Monel metal - -	235
Effects of Impurities on the Properties of the Copper-nickel Alloys -	239
The Mechanical Properties of Copper Alloys at Elevated Temperatures -	239
Copper-nickel-zinc Alloys: Nickel-silver - - - - -	240
Alloys of Copper and Aluminium: Aluminium bronze - - - -	242
Aluminium and its Alloys - - - - -	245
Properties of Commercial Aluminium - - - - -	246
Alloys of Aluminium - - - - -	248
Aluminium-copper Alloys - - - - -	249
Duralumin - - - - -	251
"Y" Alloy - - - - -	255
The "R.R." Alloys - - - - -	255
Aluminium-copper-zinc Alloys - - - - -	257
Aluminium-silicon Alloys - - - - -	257
Alloys of Magnesium and Aluminium - - - - -	259
Miscellaneous Non-ferrous Metals and Alloys - - - - -	260
Nickel - - - - -	260
Alloys of Nickel and Chromium: Nichromes - - - - -	262
Bearing Metals—White Metal "Anti-friction" Alloys - - -	263
White-metal Alloys - - - - -	264
Solders and other Fusible Alloys - - - - -	268
Note on the Preparation of Non-ferrous Micro-sections - - -	269
The Welding of Metals - - - - -	270
Soldering - - - - -	270
Brazing - - - - -	271
Welding - - - - -	271
The Welding of Iron and Steel - - - - -	274
Welding of Copper and its Alloys - - - - -	276
Welding of Aluminium and its Alloys - - - - -	277
INDEX - - - - -	279
