

CONTENTS

Piotr Golański, Przemysław Mądrzycki

Use of the expert methods in computer based maintenance support
of the M-28 aircraft.....5

Jerzy Graffstein

Analysis of selected variables characterising the manoeuvre
for moving obstacle avoidance13

Jędrzej Hajduczenia, Sylwester Kaczmarek, Jarosław Sadowski

Deduplication of tracked objects position data at single observation point
of a Vessel Monitoring System.....23

Zdzisław Kopacz, Wacław Morgaś

Criteria for estimating navigational safety at sea.....33

Jan Monieta

The identification and elimination of interference in pressure course
in the cylinders of internal combustion engines
measured under marine power plant exploitation conditions.....47

Bogdan Szturomski

The effect of an underwater explosion on a ship.....57

Elżbieta Welker

Polish magnetic measurements in the Baltic — history and prospects.....75
