

CONTENTS

Arkadiusz Adamczyk

Energy profiles as a method for minimizing weight of hybrid power supply systems 5

Marcin Kluczyk, Andrzej Grządziela

Vibration diagnostics of the naval propulsion systems 15

Ryszard Kłós

Pollutions of the hyperbaric breathing atmosphere 31

Wacław Morgaś, Zdzisław Kopacz

Conversion of geodetic coordinates into flat (2-dimensional) coordinates PL-UTM for the purposes of navigation 45

Adam Olejnik

The impact of parameters of air hyperbaric exposure on the decompression chamber first ventilation 61

Bogdan Pojawa

Operational diagnostics synthesis of the naval gas turbines operated by the Polish Navy 75

Bogdan Szturomski, Radosław Kiciński

Simulation of the impact resistance of Kilo type submarine loaded with non-contact mine explosion 99
