

BRIEF CONTENTS

CHAPTER 1	The Earth's Atmosphere	2
CHAPTER 2	Warming the Earth and the Atmosphere	28
CHAPTER 3	Air Temperature	58
CHAPTER 4	Humidity, Condensation, and Clouds	84
CHAPTER 5	Cloud Development and Precipitation	122
CHAPTER 6	Air Pressure and Winds	156
CHAPTER 7	Atmospheric Circulations	184
CHAPTER 8	Air Masses, Fronts, and Middle-Latitude Cyclones	222
CHAPTER 9	Weather Forecasting	256
CHAPTER 10	Thunderstorms and Tornadoes	286
CHAPTER 11	Hurricanes	332
CHAPTER 12	Global Climate	366
CHAPTER 13	The Earth's Changing Climate	396
CHAPTER 14	Air Pollution	430
CHAPTER 15	Light, Color, and Atmospheric Optics	460

APPENDICES

A	Units, Conversions, Abbreviations, and Equations	483
B	Equations and Constants	486
C	Weather Symbols and the Station Model	488
D	Average Annual Global Precipitation	490
E	Köppen's Climatic Classification System	492
