

CONTENTS

Franciszek Grabski

Nonhomogeneous stochastic processes connected to Poisson process	5
--	---

Ryszard Kłos

Selected decompression procedures for survivors who became saturated in a sunken wreck	17
---	----

Bogdan Szturomski, Krzysztof Świętek, Wojciech Jurczak

Determination of dynamic characteristics of austenitic steel to be utilized in FEM simulation and its verification	35
---	----

Rafał Miętkiewicz

Unmanned surface vehicles in maritime critical infrastructure protection applications — LNG terminal in Świnoujście	43
--	----

Tomasz Praczyk, Piotr Szymak, Krzysztof Naus, Leszek Pietrukaniec, Stanisław Hożyń

Report on research with biomimetic autonomous underwater vehicle — navigation and autonomous operation	53
---	----

Piotr Szymak, Michał Przybylski

Thrust measurement of biomimetic underwater vehicle with undulating propulsion	69
---	----

Krzysztof Just, Paweł Piskur

Static analysis of the tubular electromagnetic linear actuator with permanents magnets	83
---	----
